Main gets facelift

by David C. Ruby

The 1982-83 school year is the first to witness a new, and more professional-looking bookstore and mailroom. All summer long, people have worked hard to provide better-looking and more efficient services. Today we see the finished product and know that the result is truly worth the effort.

It all started when a Store Administration Board was established by William Komai, Vice-President for Business and Finance. The board's job was to review operation of the bookstore and mailroom in order to find ways to make them more appealing and run more efficiently, with primary emphasis placed on having the textbooks ready for the beginning of the school year. The board consists of David Quimby, Director of Auxiliary Services and Facilites; Kenneth Smits, Controller of the College; and Marlene Winter, Manager of the Bookstore. The board is the result of changes to the Administrative Advisory Council, which were approved in the fall. After the proposals were approved, the board worked on plans and supervised the work. The board will continue to function for the purpose of reviewing the progress.

Many changes have taken place in the bookstore. The major change which took place was the moving of the textbooks off the floor into the back room, thereby creating more floor space.

Clerk service has been implemented for the distribution of books. In the front of the store a glass wall was installed. The new glass wall will help with security and create more display space with the glass shelves. The outside windows were covered up mainly because they were not really used for anything. Energy conservation and improved security were also key considerations. The office of the manager has been moved to a more accessible and better located location.

The mailroom has changed over the summer also. It has been painted and carpeted. The most noticeable change is the mailboxes. More have been added, giving each member of the faculty, each organization and each housing unit a mailbox. In the purpose of reviewing the progress.

The services of the mailroom are increasing. It is now open 8:00 A.M. - 4:30 P.M. on Saturdays. Both 139 and 164 stalls are sold in the mailroom. Bulk mailings will soon be possible.

Overall the people in the basement of Main Hall are very pleased with what has taken place during the summer. Winter has had the goal to "make the bookstore attractive enough to make people want to come in, even if it's just to browse." She is looking for feedback on the changes, especially on the new policy of clerk service for obtaining textbooks.

Main gets facelift

Ambitious and curious, the latest crop of St. Norbert freshmen arrived on Sunday, Aug. 29. The students slashed their parental ties to enter the new world of college life, with hopes of completing their education and entering the employment market.

Cast into an atmosphere of unfamiliar faces and places, the freshman must adjust to a new way of life. Jim Schafer, a pre-dentistry major from Appleton, WI thinks it will be easy to adjust. He feels that college is a novelty, and willing to help. The newcomers were met with J&L's books, books to buy, registration, and orientation programs, all of which is supposed to help from others. Jon is looking forward to a challenging, yet interesting year.

James Beard, Director of Facilities, drew up the plans and supervised the work. The board will continue to function for the purpose of reviewing the progress.

Winter would like to "thank the Administrative Advisory Committee for having the confidence in us to give us the opportunity to make this first-rate college bookstore." Kathy Blohowiak, the mailroom supervisor, is grateful that she has a mailroom which looks, acts and is treated like a mailroom should.
