# SNC Garden Club

## Community Service Events:

We volunteer and host events which bring the community together

We host Harvest Fest, SNC Garden Party, and SNC Earth Day

Extraveganza festivities as well as volunteer for Garden Blitz and many other events

## Environmental Friendliness:

All of the food we harvest is bought by the SNC cafeteria or donated to Paul's Pantry

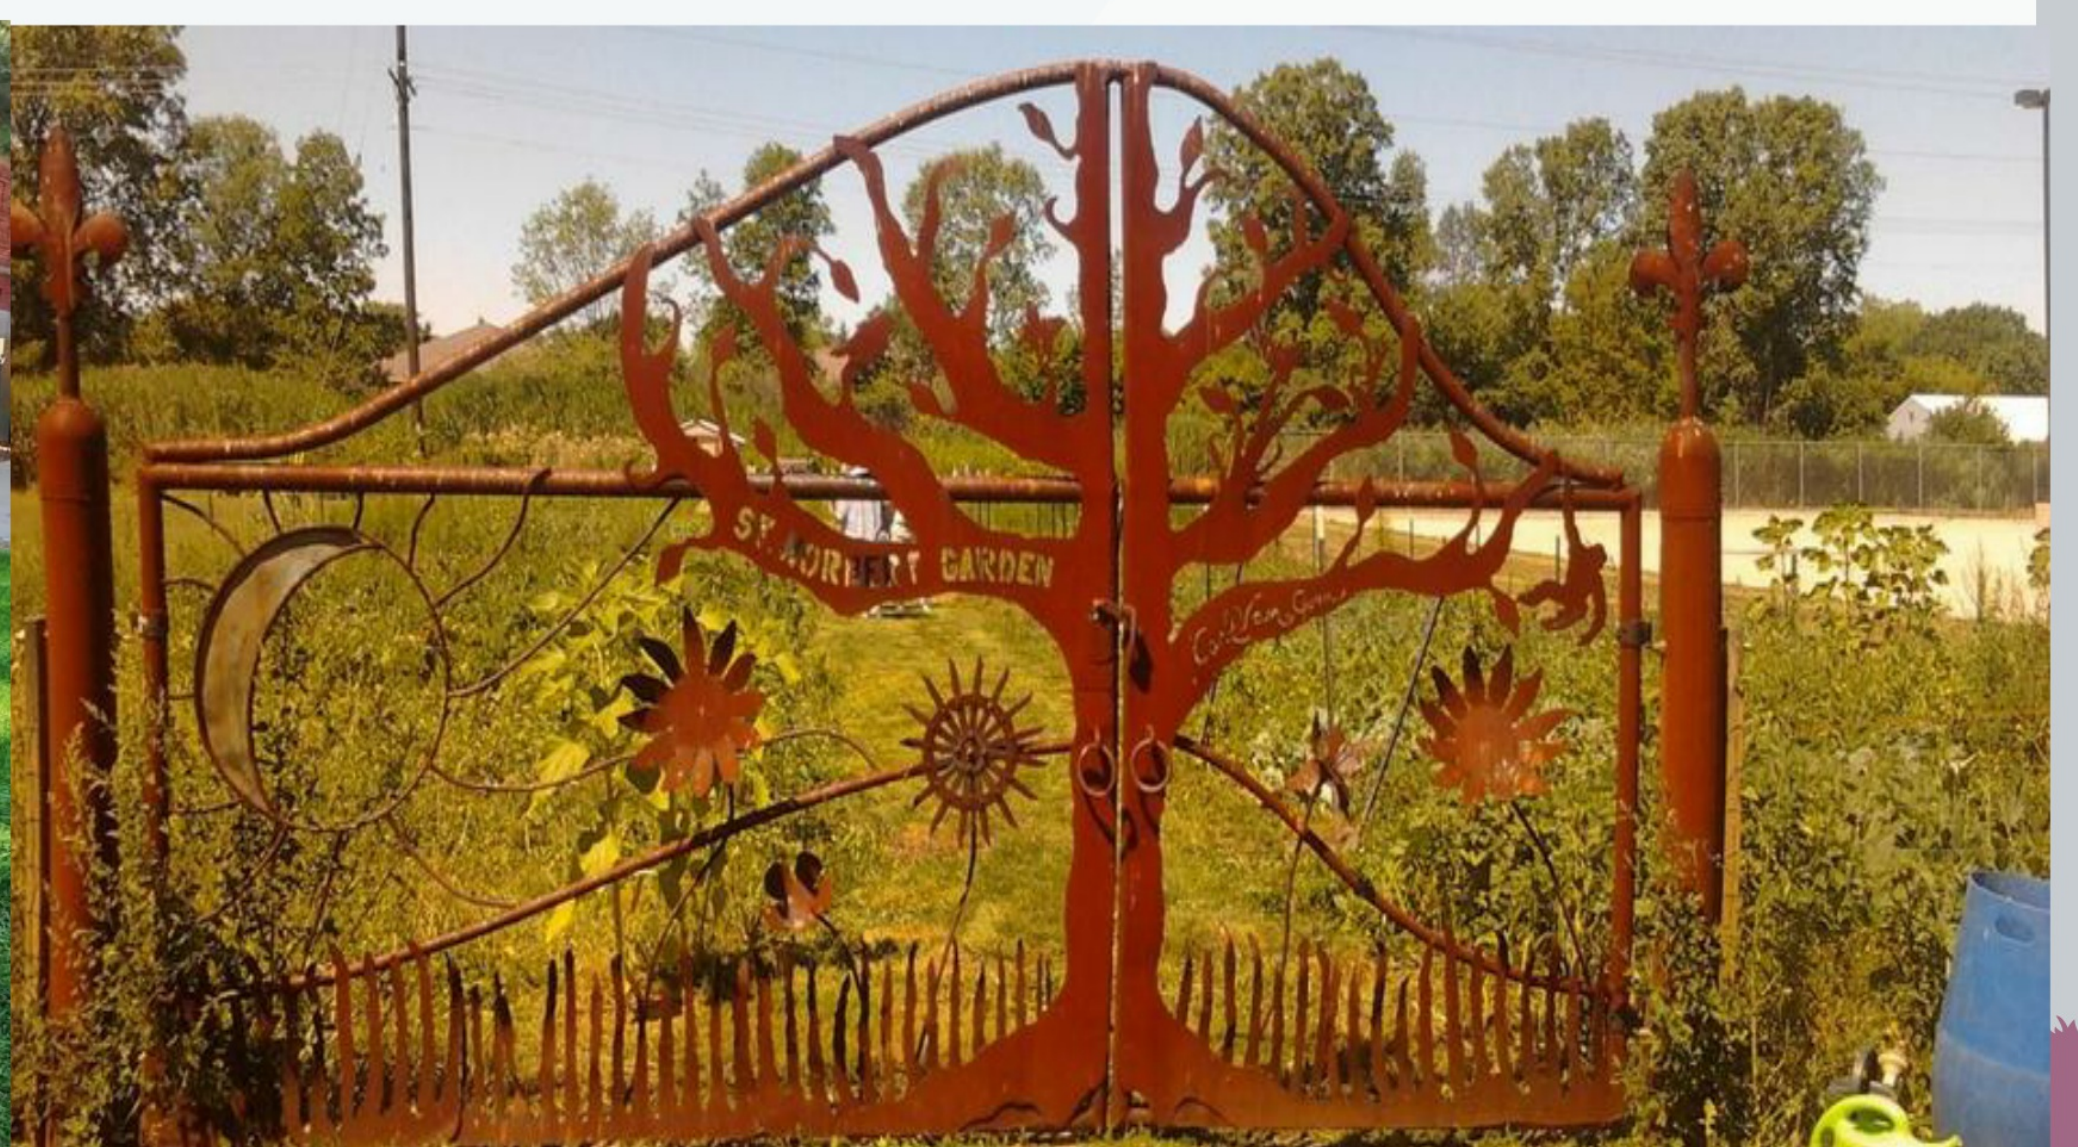

Proud owners of an aquaponics system in the cafeteria

## Our Practices:

We engage in all organic practices including but not limited to organic fertilizer and pesticides

We gather coffee grounds from Ed's and Luna to reuse it as compost in our garden

"We are not entitled to anything on this Earth. We need to start living thoughtfully and sustainably in order to keep our home."

-Sarah Cocco '17  
SNC Garden Club President
