EDUC 278: Positive Behavior Supports and Assessment

Instructor: Dr. Sharon Bohjanen

encompass

Early Education and Care, Inc.
Established in 1919

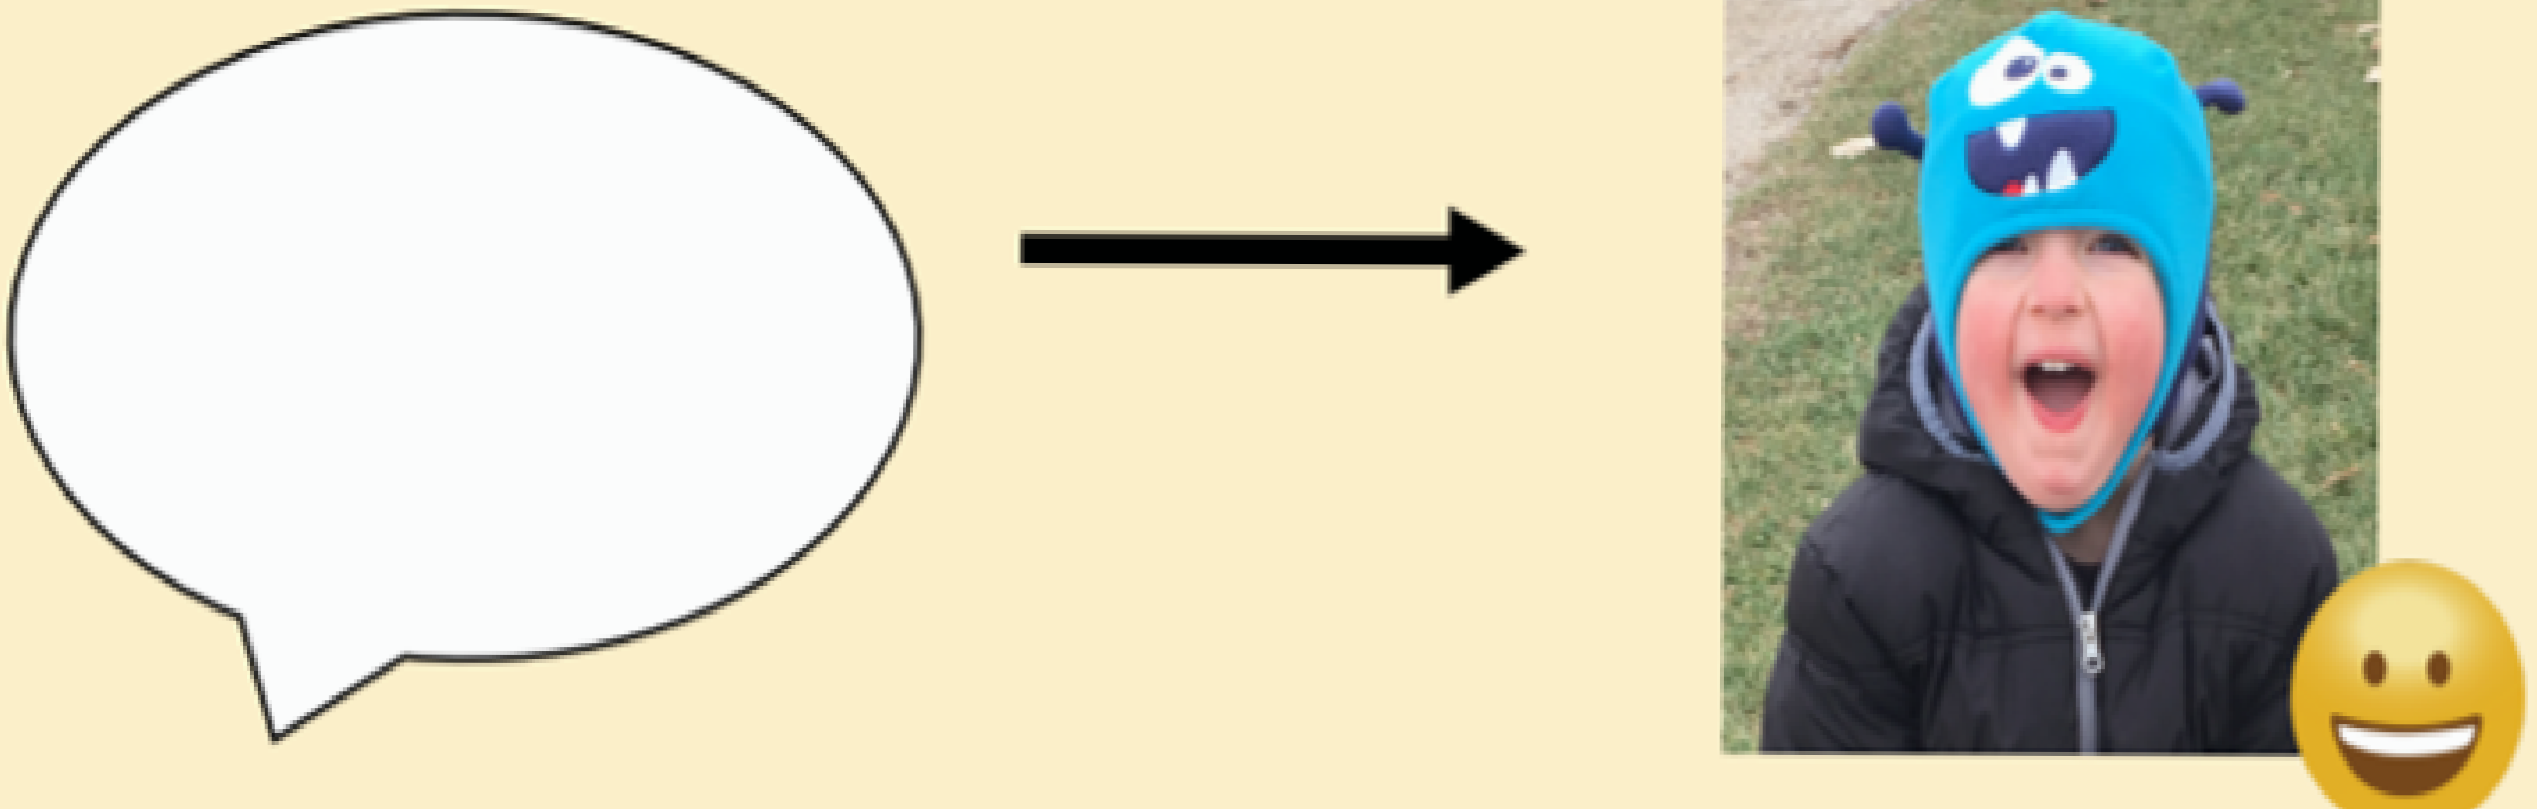

Students participated in an early learning education setting at Encompass that serves children at risk. The course provided students with skills to support positive behavior to alleviate the negative effects that often accompany poverty. Students experienced the impact of positive behavior support for young children to promote early development and academic success.

"Volunteering allowed us to give the teachers at Encompass a helping hand. Additional teachers in a classroom means more student interaction which is so important, especially at a young age. We were able to work with and create relationships with the students and provide them with positive role models. In creating our positive behavior supports, we were able to take the needs of each Encompass classroom and give them a unique support that was create specifically for them and what they wanted."

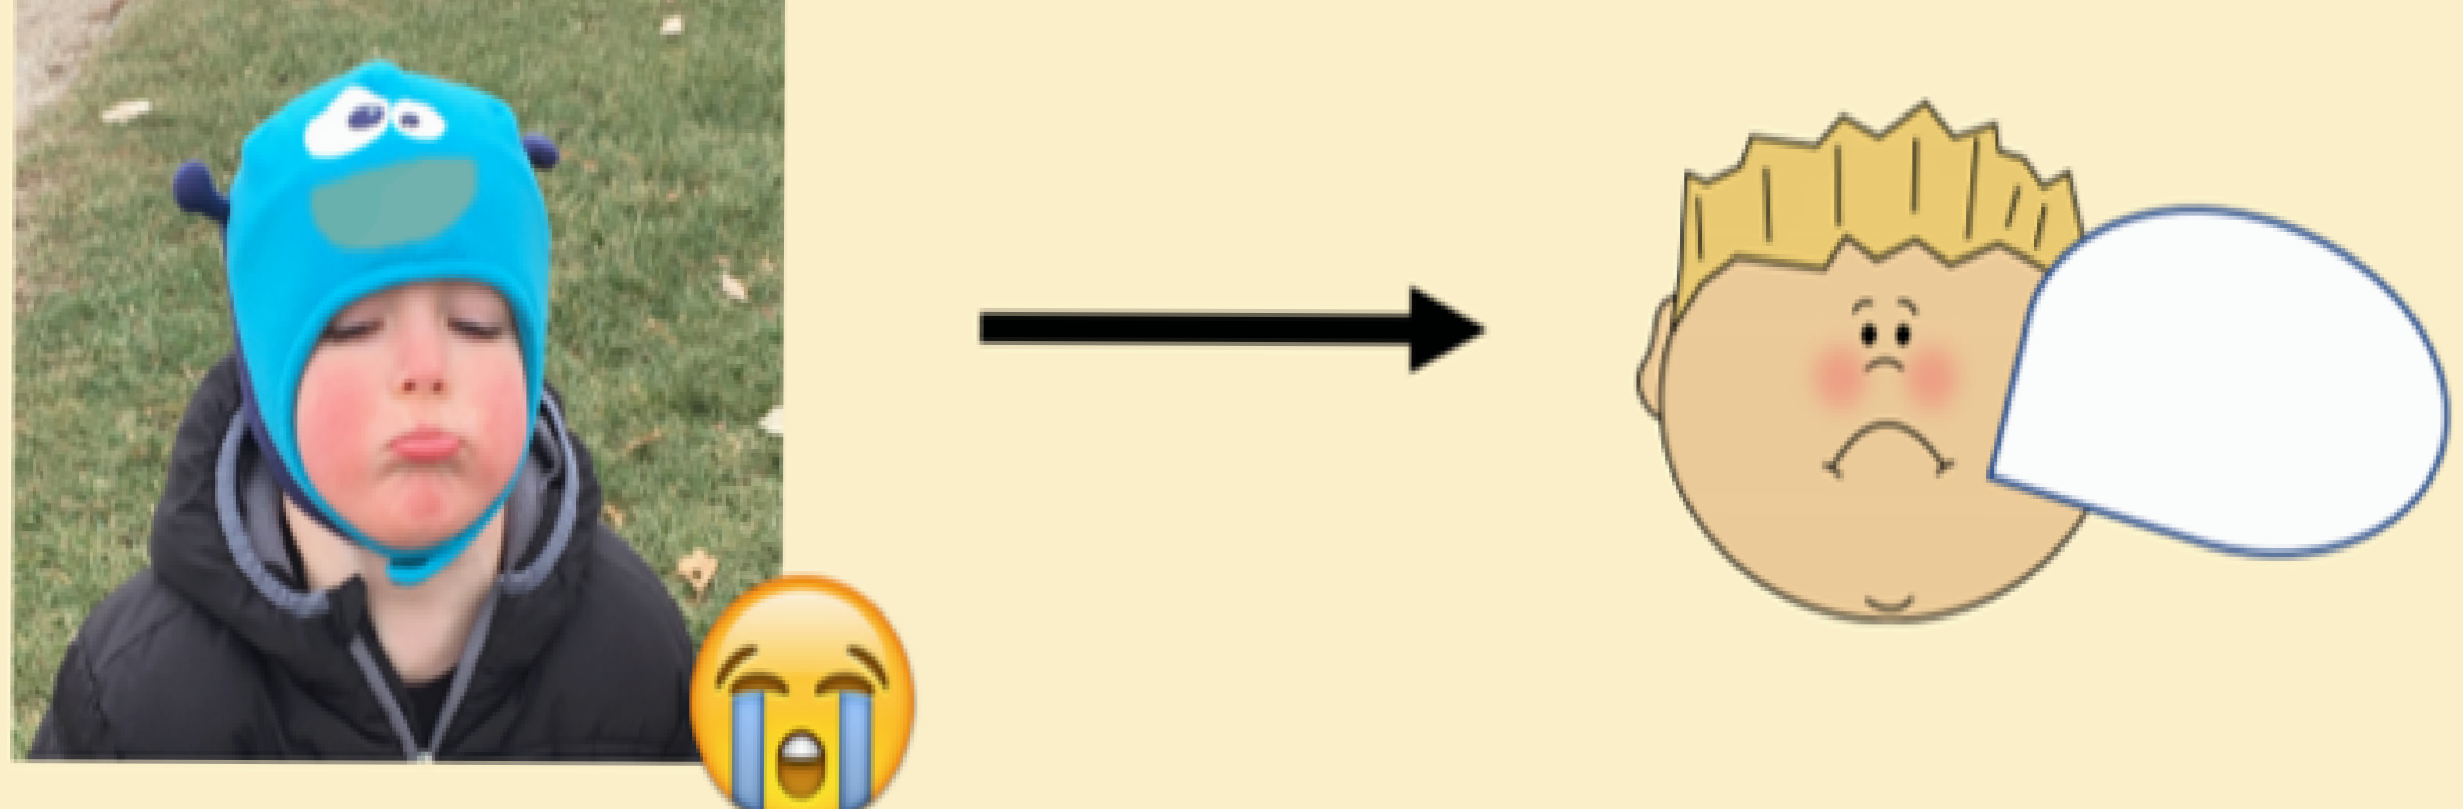

-Clare Cuene '19

5

Everyone is happy when I use my words

2

When I feel sad, I can use my words to tell a teacher or friend what is wrong.

-Clare Cuene-

-Elizabeth Scheuer-

"This course had a deep impact on me in the sense that it combined my love for education with my passion for community involvement, service, and the common good. In addition, it allowed me a space to interact with a diverse group of students from the Green Bay community, turn theories into practice, and meet the needs of our community partner through a mutually beneficial service experience."
