in the pilot course

Over 200 hours  
served!

# ART 285

## Art in a Democratic Society

The community service component is designed to bring an active and experiential understanding of the basic mechanisms of our democracy beyond the concepts of democratic theory explored in other aspects of this course.

### The students in this course:

- Worked with the Norman Miller Center to develop freelance design
- Developed group projects in a democratic way
- Participated in an aspect of civic service: voter registration, working the polls, phone campaigns

“Democracy asks us, ‘What is the world we want to build?’”

-Neale Tracy  
Participant Fall 2020
